Solving the Cash Crunch

Cash flow management is critical to the success of any business – and especially so for rapidly expanding businesses. Rapid growth can often create a cash crunch when receivables delay the revenue necessary to fund the growth. Many promising businesses have been forced to forfeit growth opportunities or have been hampered by their inability to fund payroll, services and other required capital expenditures.

Invoice Financing with Capital Partners eliminates this cash gap and provides the financial resources necessary to leverage your growth, ***without incurring debt.***

Capital Partners
provides the cash
you need to
improve and grow
your business

- Access cash immediately for any reason, within 24 hours
- Fill larger, more profitable orders without creating a cash gap
- Strategically expand your business through dependable cash flow
- Stay current with payroll, suppliers, expenses and taxes
- Increase sales by offering better credit terms to your customers
- Reduce expenses by taking advantage of supplier early-payment discounts
- Improve your business credit rating
- Eliminate or reduce staffing expenses with Capital Partners' comprehensive accounts receivable, management, and collection services

The Financial Advantage

Programs Available

Our accounts receivable finance programs are designed to assist businesses requiring \$5,000-\$2,000,000 per month in instant growth capital.

With our rapid funding and a staff dedicated to supporting your success, Capital Partners lets you focus on your business, not your bills.

By selling your unpaid invoices to Capital Partners, you can convert your receivables into immediate cash, generating a dependable and consistent cash flow. It's a fast, safe, low-cost alternative to lines of credit, and with rates as low as 1%, it is even less expensive than the cost of a merchant service credit card account.

We do not typically require financial statements or tax returns from you – instead, Capital Partners reviews your invoices and the credit-worthiness of each of the customers you wish to factor. Any business that requires working capital for any reason can benefit from invoice financing.

It's Fast & Easy

Capital Partners has streamlined the approval and qualification process for your convenience. By completing one simple form – our Client Profile – along with any necessary support documentation, you will quickly receive a competitive proposal that, once accepted, will result in funds being deposited directly into your account within hours. It really is that easy!
